Sub-Category:	Price Monitoring Module	Browser:	Firefox
Step_Description:		URL:	
Pre_Conditions:		Test Case ID:	
Expected Result:	they should be empty with no values filled,		
Description			
fields are caching values when navigating between PM module tabs - PM			
the fields Price Comparison Screens & Price Comparison Screens & Price Comparison Screens values caches when moving between tabs			
steps to duplicate:			
1- open PM module to Price Comparison Screens screen			
2- fill the three fields Price Comparison Screens & Price Comparison Screens & Price Comparison Screens the go to the tab Price Comparison Screens			
3- check the three fields displayed in the new screen			
they should be empty with no values filled, they are displayed with the values from the first screen
