History

#1 - 09/19/2019 01:27 PM - Salah Saad

- Status changed from Open to Feedback
- Assignee changed from Salah Saad to Israa Naser

please note that Attachment is a common separated (shared) region for all service , and all validation and checks done from the database , including checking if all required attachments are uploaded or not .

so it we can't call it in every screen (service) individually , it must be done from attachment service .
