Feedback:			
Consider all the notes below in Arabic and English Designs			
Extranet Portal:			
1- Slides Section should be shortened			
2- Navigation menu --> remove the partitions between the menu content.			
3- Enhance the design for the announcement on the home page to fit the name next to the date			
4- All the pages from the "Media Center" menu needs to be modified to have the search field on top of the content of the page			
5- Provide Login Page for mobile users			
6- Ministry Services pages (No mobile Design)			
7- announcement with attachments			
8- zoom for the organization structure image			
9- login page			
10- long names for the images in the image gallery			
11- locations drop down in the Service Catalog Cards			
12- space between the contact information and the footer in the "contact us" page			
the following feedback after testing the design on Real Device:			
1-Footer alignment			
2-Poll is not previewed on the Search result page			
3-"Preview" action for publication downloads the file directly			
4-Long department names and services in "Our Services" should be considered on mobile devices since the user cannot hover on the department name to check the full name			
5- The arrows (Next, Previous) that are located in the image gallery and the video gallery should be always displayed			
6- The Header of the portal (Logos and navigation menu) should always be displayed even when scrolling down			
Actions to be removed if using mobile design on Extranet			
1- "Contents"			
2- Administration			
3- Polls
