Now when clicking "□□□□□" to print the report, the server can not be reached (video attached)

History

#1 - 06/18/2017 09:45 AM - Khaled Musa

- File site can not be reached.png added

#2 - 06/18/2017 02:13 PM - Abed Abuhalawa

- Status changed from Open to Closed

this data is different because the page read from test database and the report read directly from production database
however we checked the data on production by Atta and it correct data.
