You are comparing old READONLY form (opened by clicking trxNo in CRUD) with new SUBMISSION form (opened by clicking icon next to transactionStatus).

If you will compare old SUBMISSION form (opened by clicking icon next to transactionStatus) with new SUBMISSION form (opened by clicking icon next to transactionStatus) you will find that both forms are behaving same.

the read-only forms open with the old form theme

So what is your point? We are not changing READONLY forms to new theme.
