<b>Expected Result:</b>		<b>Test Case ID:</b>	
<b>Description</b>			
we need to add this feature in follow requests screen.			
when a transaction has rejected in any step, the reason of the rejection, the employee has rejected the transaction, the date and the unit (□□□□□□) of the transaction should be shown in follow requests screen.			
they are asking about this feature every day.			
I will give you the current situation (real life) in the ministry any employee rejected any order throw any step and the citizen comes to ask about his order they should back to Shadi and Mohanad to check from the data base why the transaction has been rejected and from whom.
