History

#1 - 08/05/2018 01:19 PM - Abed Abuhawala

- Status changed from Open to Feedback
- Assignee changed from Abed Abuhawala to Mahmoud Tarawneh
- Priority changed from High to Urgent

kindly note we can handle the first point, but it still slow loading there is more one reason :

- main SQL read from db procedure .
- page layout have complexed components dependencies (ppt, component binding).
- java code need to redesign so another one can understand what going on.
- there is executable java method located in a page_bean not in am_impl class run when load.

so our recommendation to redesign the whole page

#2 - 08/05/2018 02:16 PM - Mahmoud Tarawneh
